

NEXT

Wisconsin CTSOs 2006 Leadership Experience

NEXT is a high energy, hands-on leadership development experience. Participants will build leadership skills, network with others from across the state, and have fun in the process!

- NEXT is **NEW** - Creativity is one of the keys to a leader's success. Participants will learn how to use specific techniques to achieve new and creative results.
- NEXT is **NEAR** - Effective leaders are forward looking. They have a vision for themselves and their organizations. They set goals that get positive results.
- NEXT is **NECESSARY** - In order to maximize efficiency and get the best results, it is necessary for a team of people to pursue a goal and see it through to completion. Understanding the strengths and opportunity areas of teammates, delegation, and empowerment will allow leaders and teams to get results.
- NEXT is **NICE** - Effective leaders understand the importance of projecting a positive and professional image. They appreciate diversity, they make ethical decisions, and do the right thing.
- NEXT is **NOW** - Taking risks and action will move leaders and their organizations forward. Leaders do not seek lateral movement. They are agents of change, they take action, and get results.

This collaborative Wisconsin CTSO conference is a unique opportunity to network with students from your own and other organizations from across the state, facilitating idea-sharing and cooperation. Students will gain essential chapter management skills in addition to individual growth as leaders. Another great benefit of this multi-organization format is that your costs can be reduced by sharing busses with other attending organizations from your school. Enjoy the program, the resort, and the waterpark!

Don't miss this exciting leadership development experience at the Kalahari Resort in the Wisconsin Dells!

DECA - FBLA - FCCLA - FFA - HOSA - SkillsUSA
